

Date : / / 20

Name - Shantanu Deshpande

Class - SYCSE

Roll no. - 7

Batch - S1

Subject - DOS

Experiment No. 4

Aim :- To design registration form for students by using HTML, CSS, & Javascript, and perform the following validations. All fields mandatory, Name, phone number and email address validation.

Code for designing registration form :-

```
<!DOCTYPE html>
```

```
<html>
```

```
<head>
```

```
<title>
```

```
    REGISTRATION FORM
```

```
</title>
```

```
<!-- add icon link -->
```

```
<link rel = "icon" href = "img.jpg"
```

```
type = "image/x-icon">
```

```
<script>
```

```
    Function GEEK FOR GEEKS()
```

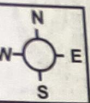

```
    var name =
```

```
        document. Forms ["RegForm"] ["Name"];
```

```
    var phone =
```

```
        document. Forms ["RegForm"] ["Telephone"];
```

Date : / / 20

```
var email =
```

```
document.forms ["Regforms"] ["email"];
```

```
if (name.value == "") {
```

```
    window.alert ("Please enter your name");
```

```
    name.focus();
```

```
    return false; }
```

```
if (email.value == "") {
```

```
    window.alert ("Please enter your Email address");
```

```
    email.focus();
```

```
    return false; }
```

```
if (Phone.value == "") {
```

```
    window.alert ("Please enter your mobile NO.");
```

```
    phone.focus();
```

```
    return false; }
```

```
    return true; }
```

```
</script>
```

```
<style>
```

```
div {
```

```
    border : 1px solid black;
```

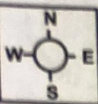

```
    width : 100%;
```

```
    border : 1px solid black;
```

```
    float : none;
```

```
    align : center; }
```
